

Emergency Measures Theme Request sheet

1. Title of the Project: _____
2. Participants: _____
3. Please select one from each column of the following table

Topic of the project

We are dealing with this

site: _____

p.e. ideas to prevent the destruction of a certain building, biological feature, or social context; or ideas to build/grow such a feature

type: _____

e.g. cooperative dwellings, suburban office estates, single family houses

Initiative: _____

that works towards new, non-polluting and non-exploitative living patterns, and that is anchored in space (cooperative, NGO, ...)

type of crisis

With our project we want to tackle the

climate crisis

The climate crisis is a term for the ecological, political and social crisis associated with global warming. (Wikipedia)

environmental crisis

An ecological or environmental crisis occurs when changes to the environment of a species or population destabilizes its continued survival. (Wikipedia)

housing crisis

The term housing crisis refers to acute problems with the provision or market for shelter and lodging. These include shortage and affordability crises as well as financial crises related to the real estate sector. (Wikipedia)

crisis of democracy

As rightwing populism seems to take over Europe we postulate a new crisis of democracy. How could we support democracy in urban design?

type of project

We want to do this with a

plan

An urban design proposal on a certain site. As a matter of principle, we avoid land take and the creation of impervious surfaces as well as demolition.

strategy

develop a framework or strategy outlining principles and guidelines for the desired change in a given spatial setting

intervention

create an intervention in urban space through iteration and reflection that addresses an urbanistic issue. Only BA Thesis, only Summer semester ("Interventionsklasse").

start-up

develop an urbanistic business idea, or an idea for a new institution.

4. What is the occasion? Why is your project necessary and why now?

5. How do you want to accomplish this? Which methods do you want to use and with which partners do you want to work?
